Monthly Report (#1 July, August 2021)

Your time is limited, so don't waste it living someone else's life. (Steve Jobs)

[President Munakata Policy (2021-2022)] Key Message: We are People of Action.

We were born on this earth and are members of the society. Mankind has benefited a lot from the earth, but is the return to the earth established? Rather, we are accelerating negative returns such as destruction of the natural environment and conflict. The collapse of the global environment that nurtures life is becoming a reality. Human society needs to do a positive service to the planet before it's too late. There are two methods of service: vocational service through company business and individual service activities outside the profession. The Rotary Club of Sendai Ohu will provide a platform that enables these two service activities.

[Activity policy] We give first priority to giving back to the global environment. The keyword is "solidarity". We carry out activities with the solidarity with nature and the solidarity with all mankind in mind. In other words, it is also an activity to eliminate "conflict" which is the antonym of solidarity. We will apply this policy to the following three fields. Our activity area is primarily in the Ohu region (Tohoku region), which is our base of activities, but we are also considering activities on a global scale by cooperating with Rotary clubs around the world. (1) Natural environment protection: Conservation of water environment (forest protection, etc.), measures against marine pollution by microplastics, measures against air pollution and warming (2) Primary industry development: Measures against the decline of the primary industry due to the aging of the population, measures to prevent food loss. (3) Education: Development of human resources who will lead the future, penetration of "Compassion"

● This year's activity policy of each committee

[Public Image Committee] Launch of club homepage : We will accurately deliver the appeal of the club to those who are considering joining our club, incorporate community functions, and build a framework to increase opportunities for communication between members. (Budget amount: 600,000 yen)

[Service Projects Committee] Supporting organizations and individuals who are engaged in efforts toward the

realization of a sustainable society centered on the protection of the natural environment, fostering the primary industry, and education. We will also work toward the realization of a sustainable society through these social service activities.

[Club Management Committee] Smooth operation of the club and creation of its mechanism. (Budget amount: 200,000 yen)

[Membership Committee] Pamphlet and poster making: We will increase the number of members who support the activities of this club and can work together. (Budget amount: 100,000 yen)

[Foundation Committee] Collaborate with the Service Projects Committee and act in accordance with the president's business policy. (Combined with the Service Projects Committee)

● **Activity Report (July & August)**

《COVID-19 vaccine group inoculation》

Co-sponsored by the medical corporation Soushikai (Munakata Yasuhiko Clinic) and the Rotary Club of Sendai Ohu. On Sundays, July 11, 18, August 1, and 8, we carried out group inoculation of the COVID-19 vaccine to school / education-related persons and residents of the Sendai-Ayashi area.
