Monthly Report (#6 January 2022)

Your time is limited, so don't waste it living someone else's life. (Steve Jobs)

●Activity Report (January)

<< "MIKOTO" mask >>

We are testing the usability of the "MIKOTO" mask using nanofibers.

A mask that can be used repeatedly without losing its effect even after washing.

The increase in mask waste causes marine pollution due to plastic waste.

Disposable masks are the norm, but from the perspective of global

environmental protection, it is necessary to consider and reduce the waste of

disposable masks. Our club will continue to work on the theme of medical waste reduction, which is a sanctuary.

<< Ms. Kumi Yamashita, the representative of Mamemugi Morinonaka, gave a remote lecture on "beeswax rap" >>

"Beeswax wrap" uses beeswax from Ishizuka Bee Garden in Marumori. It has the following features.

*Safe and secure even if it gets in your mouth

*Antibacterial and moisturizing properties keep vegetables fresh for a long time

*Can be used for at least half a year

*When buried, it returns to the soil.

*Contributes to waste reduction

*Wrap vegetables, rice balls and sandwiches

*Suitable for bowl lids

*Can be molded and used as a container

*The offcuts are used as an ignition agent
